

Year 6 Maths Homework

Due in Friday 21st September 2018

Worded and Digit Numbers

Convert the worded numbers to digits and the digital numbers to words:

1. Four thousand and fifty-three
2. 56,129
3. Three hundred and twenty-one thousand, one hundred and ninety
4. 507,340
5. Seventeen million, two hundred and eighteen thousand, five hundred and three

Identifying the Value of Digits in Numbers

For each of the following numbers, write the value of the digit which is underlined:

1. 5,698
2. 78,230
3. 319,673
4. 62,889
5. 67,893,661

Ordering Numbers

For each question, place the numbers in ascending order:

- | | | | | |
|----|---------|---------|---------|---------|
| 1. | 5,671 | 4,781 | 3,987 | 6,389 |
| 2. | 56,901 | 65,112 | 56,398 | 65,509 |
| 3. | 63,889 | 36,998 | 63,998 | 36,889 |
| 4. | 693,459 | 693,549 | 693,954 | 639,495 |
| 5. | 12.57 | 125.7 | 1.257 | 1,257 |

Rounding Numbers

Round each of these numbers to the nearest 1,000:

1. 5,834
2. 24,776
3. 456,081
4. 1,764,883
5. 5,149.265
