

*Spellings:* submerge, subheading, submarine, subordinate, subway, superman, supervise, supersede, superpower and superhuman.

*Literacy:* write an example of simile. What are the differences between metaphors and similes? Now write a metaphor.

*Maths:* review times tables. Round the following numbers to the nearest whole: 3.25, 0.21, 5.983, 6.72 and 10.5. What have you noticed?

*Science:* research at which temperature chocolate goes from solid to liquid state and from liquid to gas state. What are those temperatures that each substance has called?

Remember homework might be about something we have learned about, something we are learning about or something we will learn. It is important to give it a try and connect it with learning you might have done in the past too.
