

Year 6 Literacy Homework

Due in Friday 13th March

Another unit of work, another paragraph with mistakes. 15 of them to be precise: a mixture of spelling errors and punctuation gaffes. Find them, correct them, re-write the paragraph in your homework books. Good luck! 😊

My first suggestion is that you agree to install a swimming pool on school grounds. although you may have concerns about cost, I think you will find that Friends of hartsbourne would be delighted to hold fundraisers to help cover the cost. Additionally, once the pool is built, we could open it up to the public, which would generate more income for the school. Swimming is a vital skill! and building a pool would give all Hartsborne children the chance to learn something which, one day? could very well save their lives. As well as this, at a time where childrens health and fitness is constantly in the news, regular swimming lesons would have a tremendous impact in helping Hartsbourne pupils get more exercise. Finally: don't you think a cool, refreshing swim first thing in the morning would really help set the children up for a day of learning? I certinly do, and I'm sure they would agree. Overall, a swimming pool would be a great way for children to get regular exersise and have fun in the process (in short, they would be healthier and happier)
